

CL Challenger Lifts

Why Versymmetric® or Versymmetric® Plus 2-Post?

- » It's like owning 2 lifts in One — Versymmetric® 2-Post lifts provide the versatility to lift symmetrically and asymmetrically within the same service bay.
- » Available in **Versymmetric®** offset 3-stage front arms or **Versymmetric® Plus** offset 3-stage front + 3-stage rear arms for maximum productivity.
- » Offset front arms maximize productivity by providing single sweep to vehicle lift points - no rolling vehicles back and forth to swing arm clear of front tire.
- » Provides open door clearance for trucks, vans, SUV's and passenger cars for access to vehicle controls.
- » Dual safety locks disengage simultaneously with a Single Point Mechanical Lock Release.
- » Overhead shut off system protects vehicles from being raised too high.
- » The most versatile lift in the industry can be turned into a complete bay productivity solution with many accessories to choose from.

Versymmetric and Versymmetric Plus 2-Post models available in 10,000 lb. capacity.

Floor plate 2-Post available in 9,000 lb. capacity.

Heavy Duty Symmetric 2-Post lifts available in 12,000 / 15,000 / 18,000 lb. capacities.

Many accessories to choose from.

2-Post Accessories

Frame Engaging Adapters

Frame engaging adapters are required for lifting trucks or other vehicles with frame construction. Provides direct contact to frames without the slipping associated when lifting on

†Part#: 10318

sprayed undercoatings with traditional rubber pads.

- » Works with all Challenger above ground two post lifts (Part #10317 Reducer Bushing Kit required for use with models 15000 and 18000 2-Post lifts)
- » Cradle provides secure fit to frame in tight spaces such as around gas tanks to minimizing slippage

Column Extensions

Column extensions provide more head room underneath vehicles. This allows the technician to work at their ergonomic height while servicing higher profile vehicles.

Available for models **CL10series, E10, E12, 12000, 15000 and 18000** 2-Post lifts

Air/Electric Workstation

Increase productivity with air supply and electric outlets on the lift column.

- » Convenient power source for extension lights and other tools
- » Air supply will always be at arms reach for facilities using impact wrenches

Part#: B10264A

Part#: 10313

Part#: THK

†Part#: 10318

Part#: 10317

Part#: 10315

Part Number	Description
10313	Two 6" Stack Adapter Extensions
10314	† Frame Engaging Adapters for 2-post lifts (pair of 2)
10315	Stack Adapter Kit - includes four 3" Stack Adapters, two 6" Stack Adapters, and two Organizer Racks with mounting hardware
10316	Adapter Organizer Rack
10317	Reducer Bushing Kit for use with 10314 and 10318 on lift models 15000 & 18000 (set of four)
10318	† Frame Engaging Adapter Kit for 2-post lifts (set of four)
10333	Sprinter adapter kit includes (2) pin adapters and (2) cradle adapters for 15000-3Sseries only
B99700	Tire tool manager work station filter/lubricator/regulator
B10264A	Air/electric workstation with filter/lubricator/regulator
THK	Tire Hanger Kit for CL10series and CLFP9 2-post models only. Includes column and arm mounting brackets with hardware

† Frame engaging adapters are REQUIRED when lifting trucks or other frame vehicles.
